

# Looking for FREE CME/CNE/CPE courses?

## Need CE to meet your DEA requirements for opioid education?

The UIC College of Pharmacy received an unrestricted educational grant from the FDA-REMS Committee to provide continuing education on the safe use of opioids.

This FREE CE series uses virtual 15-20 minute academic detailing visits to deliver the educational content. Academic detailing is a one-on-one healthcare provider outreach program. It provides accurate, non-commercial, and up-to-date drug information.

### **15-20 minute Virtual Visits (Each visit/program approved for 0.5 contact hours of CME)**

- Opioid Prescribing for Non-Cancer Pain – CDC Guideline Overview
- Chronic Pain Management – A Guide to Opioid Alternatives
- Preventing Opioid Misuse and Abuse – A Guide to Opioid Use Disorder and Tapering Opioids
- Nows the Time to Reduce NAS – A Guide for Managing Newborns Affected by Opioids
