

To Whom It May Concern,

I wanted to provide a letter of recommendation for Ms. Hina Mazharuddin PA-C for future lecture opportunities. I have had the pleasure of working with Ms. Hina Mazharuddin with our clinical class of 2021 and 2022 students. She has lectured our students during their “Special Topics in Medicine” course. She prepared a very thoughtful and engaging lecture regarding telemedicine. Although some may regard the virtual learning platform as difficult to engage students, she created a very interactive case-based telemedicine lecture that many students found enjoyable. Many students provided positive feedback with a general theme of loving her organization, case-based format, and her general feedback to students when conducting telemedicine. She has always provided correspondence in a timely and respectful manner and has been an immense value to our clinical learning.

I would highly recommend her for many opportunities in the future especially lecturing. I am happy to speak to anyone regarding this valuable experience.

Respectfully,

Rosemary Lethbridge
