

ROCKY VISTA UNIVERSITY

Achieving new heights in medical education

April 18, 2022

To whom it may concern,

Donna Naranjo lectured as a content expert in the realm of telemedicine for our physician assistant students at Rocky Vista University. She provided our first year didactic PA students a lecture introducing telemedicine, its components, delivery, and legal framework. Her content expertise is apparent in her delivery of material and handling of student questions. She speaks with confidence and mastery. She was able to utilize numerous personal experiences to demonstrate her points in a tangible way.

Donna was responsive to email and committed to the students. She was proactive in ensuring that all details regarding the class were taken care of and in line with program objectives. I felt at ease with letting her run the class independently.

I highly recommend Donna as an academic speaker in her field of expertise!

Kindly,

Whitney Lambarri

Whitney Lambarri, MS, PA-C

Adjunct Professor of Physician Assistant Studies

Rocky Vista University
