Assistant Professor
University of Mary Hardin-Baylor
Physician Assistant Program

Best,

It is my pleasure to write a letter of recommendation for Ms. Hina Mazharuddin, PA-C. Hina provided a wonderful case-based telemedicine presentation to our graduating students in March 2023. She guided the students through the evaluation of various clinical presentations and explained how to properly diagnose and treat each one using a virtual platform. Hina was extremely prepared, professional, and engaging. On the end of course survey, the students remarked how much they enjoyed the presentation and how it helped them to feel more prepared to care for patients via telemedicine. I highly recommend Hina for future lecturing opportunities, as our experience with her was phenomenal! We are truly grateful for the wonderful education experience she provided for our students.

To Whom It May Concern,

5/29/23
