

PAs in Virtual Medicine and Telemedicine

Academic Telehealth Exam Training For Students

PAs in Virtual Medicine and Telemedicine is committed to helping academic institutions integrate telemedicine exam training into their PA education curriculum.

Telemedicine Exam Training

Our curriculum and learning experience is being used in multiple **PA Institutions** already and across all their graduating classes!

All licensed institutional memberships include:

- Student membership access for faculty
- Student membership access for students

Our curated curriculum no matter what tier level will include the following training:

- Conducting a modified physical exam on a telemedicine platform
- Telemedicine documentation
- How to modify the start and end of a telehealth encounter, provide referral and/ or follow up care

Teach your students how to conduct telehealth encounters. Sign your institution up today!
